OUR WARRANTY

At GFX Solutions, we stand behind the quality of our custom police upfitting and aftermarket vehicle solutions. All aftermarket parts and labor are backed by our comprehensive 3-year/36,000-mile warranty, providing confidence and peace of mind long after delivery.

For complete warranty details, please visit gfxfleet.com/warranty.

DESIGNED FOR THE DEMANDS OF YOUR BUSINESS

Ram 1500 Work Truck delivers capability, reliability, and customization options to support any job.

Follow these six easy steps to order a truck built around your workday. Let's Get Started!

1. SELECT YOUR VEHICLE AND EQUIPMENT

Work with your Dealer to specify your vehicle with Factory and GFX Options.

Select your Mopar, options, and aftermarket equipment.

2. IDENTIFY SHIP-THRU CODE

Ask your Dealer to add one of the following Ship-Thru codes to your vehicle order.

 **USA ORDERS** **99823**
 **CANADIAN ORDERS** **99845**

3. CREATE PURCHASE ORDER

Issue standard purchase order to your preferred dealer.

Your preferred dealer will process the upfit portion of this order to GFX.

4. CONSOLIDATE COMPONENTS & PRE-STAGE

GFX monitors your vehicle's OEM production schedule and proactively procures all aftermarket components in preparation for upfit.

5. PRECISION INSTALLATION

Your truck is factory built, shipped to GFX and upfitted with precision using validated processes, engineering standards, and quality controls consistent with OEM manufacturing.

6. DELIVERY

The moment your vehicle's upfit is complete, it's immediately processed and shipped to your selling dealer for delivery – no delays or waiting on other customer's orders.

LET'S GET TO WORK

The right truck is just a conversation away. Contact our sales team today for expert advice, custom solutions, and a seamless ordering experience.

ELECTRICAL SYSTEMS & PRE-WIRING SERVICES

HARNESS & POWER DISTRIBUTION

	SALES CODE	SELECT
Wiring - Ram DT Harness - Base - Work Truck with 60-amp Fuse Block & Control Switch (1)	RDTB-KAAPE1	☐

This 60-amp fused electrical system delivers reliable, safe, and scalable power—purpose-built for today's demanding work truck upfits. Integrated switching and centralized control allow seamless operation of multiple lighting and auxiliary functions, all while maintaining a clean, OEM-style installation.

Key features include:

Support for up to 12 front and 12 rear light flashes (up to 6 light heads each), dual beacons or mini lightbars, dedicated, fully fused traffic advisor circuit, and three additional independently fused auxiliary circuits for expanded lighting and accessory integration

Engineered for efficiency and serviceability, the system offers a single-button activation switch, 6-gang fuse block, and 60-amp breaker. Simplified wiring and OEM-style quick disconnects at each light head enable fast replacement and minimize downtime. Spare wiring from the under-hood to the rear cab area allows for future expansion.

The result is a durable, jobsite-ready electrical solution that reduces installation complexity, enhances uptime, and supports a wide range of lighting and power-hungry work truck applications.

BACK UP ALARM

	SALES CODE	SELECT
Speaker - Back Up Alarm - Whelen® Self Adjusting 77-102DB - BU7710L	RDT-EWARA1	☐

Enhance jobsite safety with an intelligent self-adjusting back-up alarm. Designed to automatically adapt between 87 dB and 112 dB based on surrounding noise levels, this advanced system ensures optimal audibility without unnecessary disruption. The result is improved operator awareness, increased pedestrian safety, and a smarter balance between performance and environmental responsibility.

LIGHTING

FRONT GRILLE LIGHTING - EXTERNAL

	SALES CODE	SELECT
Lights - Grille - External - Whelen® T-ION™ SOLO™ (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLGE1**	☐
Lights - Grille - External - Whelen® T-ION™ DUO™ (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLGE1**	☐

Enhance forward-facing visibility and vehicle recognition with high-output grille-mounted warning lighting. Strategically positioned in the front grille, these lights provide immediate visual awareness to approaching motorists and jobsite personnel while maintaining a clean, factory-integrated appearance. Available in SOLO or DUO configurations to meet operational requirements and regulatory needs.

FRONT CORNER LIGHTING - EXTERNAL

(M/H FRONT GRILLE LIGHTING SELECTED)

	SALES CODE	SELECT
Lights - Front Side - Whelen Mini T-ION SOLO (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLFS1**	☐
Lights - Front Side - Whelen Mini T-ION DUO (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLFS1**	☐

Increase intersection and side-angle visibility with compact front corner warning lights designed to improve recognition from cross traffic and pedestrians. Mounted near the vehicle's front corners, these lights complement grille lighting by expanding warning coverage beyond the forward direction, creating a more complete safety lighting package. Available in SOLO or DUO configurations.

LIGHTING PARAMETER OPTIONS

REPLACE ** OR **** WITHIN SALE CODE WITH LETTER INDICATING DESIRED FLASH COLOR(S) STARTING FROM DRIVER SIDE TO PASSENGER SIDE.

SOLO FLASH LIGHTS

A = Amber
G = Green
B = Blue

C = White

DUO FLASH LIGHTS

D = Red/White
H = Green/White
K = Red/Amber
N = Blue/Green
E = Blue/White
J = Red/Blue
L = Red/Green
P = Amber/Green
F = Amber/White
M = Blue/Amber

REAR WINDOW LIGHTING

	SALES CODE	SELECT
Lights - Rear Window - Whelen® Mega T-ION™ SOLO™ (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLRL1**	☐
Lights - Rear Window - Whelen® Mega T-ION™ DUO™ (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLRL1**	☐

Provide elevated rear warning visibility with interior-mounted rear window lighting. Positioned high in the cab for improved line-of-sight, these lights enhance vehicle awareness for approaching traffic while remaining protected from weather and jobsite conditions. This solution delivers powerful rear-facing warning performance while preserving a clean exterior appearance.

REAR TAIL GATE LIGHTING

	SALES CODE	SELECT
Lights - Rear Tail Gate - Whelen® Mini T-ION™ SOLO™ (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLTT1**	☐
Lights - Rear Tail Gate - Whelen® Mini T-ION™ DUO™ (2) - Pick 2 Light Heads From Driver To Passenger - Std	RDTB-EWLTT1**	☐
Lights - Rear Tail Gate - Whelen® Mini T-ION™ SOLO™ (4) - Pick 4 Light Heads From Driver To Passenger - Std	RDTB-EWLTT1****	☐
Lights - Rear Tail Gate - Whelen® Mini T-ION™ DUO™ (4) - Pick 4 Light Heads From Driver To Passenger - Std	RDTB-EWLTT1****	☐

Improve rear vehicle visibility during roadside operations, loading activities, and jobsite work with tailgate-mounted warning lights. Installed at the rear of the truck for direct visibility to approaching motorists and equipment operators, these lights provide an effective warning zone and can be configured in multiple light-head arrangements to suit specific operational requirements.

LIGHTING PARAMETER OPTIONS

REPLACE ** OR **** WITHIN SALE CODE WITH LETTER INDICATING DESIRED FLASH COLOR(S) STARTING FROM DRIVER SIDE TO PASSENGER SIDE.

Lightbar - Back Rack Mounted - Whelen® Mini Century™ 16" - Duo Amber/White - MC16PF, 91002REC	RDT-EWLAABB1F	☐

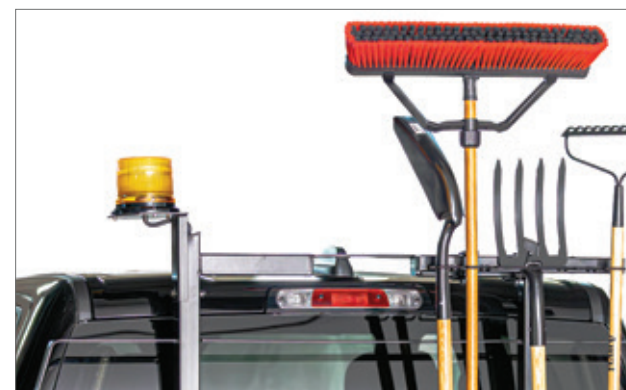

Enhance jobsite and roadway visibility with versatile warning beacons and mini light bars engineered for demanding work environments. Multiple mounting locations and lighting configurations allow fleets to tailor warning coverage to their application while maintaining a professional, OEM-inspired appearance and dependable performance.

TRAFFIC ADVISORS

	SALES CODE	SELECT
Lights - Traffic Advisor Arrow - Whelen® 4500	RDT-EWLD1AX	☐
Lights - Traffic Advisor Bar - Whelen® TAC8 Economy	RDT-EWLD1AZ	☐

Direct traffic safely around roadside work areas with highly visible traffic advisor systems designed to communicate clear directional guidance. Available in arrow or bar configurations, these warning devices help improve operator safety and traffic flow by providing unmistakable lane-change and caution signals in temporary work zones and roadside environments.

INTERIOR AND EXTERIOR PROTECTION

SEAT & FLOOR COVERS

	SALES CODE	SELECT
Seat Covers - Front - 40/20/40 (CBE) & Rear 60/40 (CFN) - TigerTough - ShieldTech - Ram (DT) 1500 Tradesman - Crew Cab - Black	RDT-OOO0B1B	☐
Seat Covers - Front Bucket (CAC) & Rear 60/40 (CFN) - TigerTough - ShieldTech - Ram (DT) 1500 BigHorn - Crew Cab - Black	RDT-OOO0B1G	☐
Seat Covers - Front Bucket (CAC) & Rear Bench (TBD) - TigerTough - ShieldTech - Ram (DT) 1500 Big Horn - Crew Cab - Black	RDT-OOO0B1J	☐
Floor Mats - Interior - Ram DT - Husky - Front Row - with GFX Logo	RDT-IAAPA1	☐
Floor Mats - Interior - Ram DT - Husky - Front & 2nd Row - with GFX Logo	RDT-IAAPA1A	☐

Upgrade your work truck's interior with a premium protection package designed for durability and hygiene. Featuring custom-fit Husky floor mats and heavy-duty TigerTough seat covers, this aftermarket upfit solution helps protect your vehicle from daily wear and tear. The TigerTough seat covers incorporate anti-bacterial technology to help reduce odors and support a cleaner, more hygienic cabin. Built for crews that demand comfort, cleanliness, and long-term performance on every job.

TONNEAU COVERS

	SALES CODE	SELECT
Tonneau Cover - BAKFlip - MX4 Matte Tri Hard Folding - Ram 1500 - 5'7" Box without Ram Box - SO TCH 448227	RDT-JATCH1A	☐

PPF - RDT-JAGPPF1

☐

Paint Protection Film (PPF) is a virtually invisible urethane film applied to high-impact areas of the vehicle to help protect the factory finish from stone chips, scratches, road debris, and everyday wear. Designed specifically for fleet and work truck applications, PPF helps preserve appearance, reduce maintenance costs, and support higher resale value throughout the vehicle's service life. Available in custom coverage packages.
